

SUPPORTING SCIENCE FROM APPLICATION TO IMPLEMENTATION

ABOUT US WHO WE ARE

The Coalition for National Trauma Research (CNTR) is a non-profit research organization (501.c.3) that has vied for federal and other funding and coordinated multi-site studies since 2006.

Projects under CNTR's management have engaged hundreds of investigators and trauma care stakeholders across the United States and drawn more than \$136 million in research dollars to date from the DoD, PCORI, NIH, AHRQ, MTEC and other agencies.

INVESTIGATOR TESTIMONIAL

"Working with our colleagues at CNTR to establish the Injury Research Engagement Panel (I-REP) has been one of the most rewarding experiences of my career. Not only are the staff expert, professional and dedicated, their passion for improving the care of the injured patient is palpable."

DEBORAH STEIN, MD, MPH, FACS

University of Maryland School of Medicine,
Professor & Director of Critical Care Services

GRANT APPLICATIONS

CNTR collaborates closely with principal investigators to write research proposals in response to federal and other funding announcements.

MULTI-SITE STUDIES

CNTR serves as the primary contractor, managing all aspects of complex multi-site studies, freeing investigators to focus on the research.

TRIALS NETWORK

CNTR works with the American College of Surgeons to recruit centers for specific trials based on patient populations and other clinical factors.

CNTR

COALITION FOR NATIONAL TRAUMA RESEARCH

ABOUT US OUR MEMBERS

To enhance trauma research in the U.S., CNTR advocates for sustainable research funding commensurate with the burden of disease, coordinates research across professional organizations spanning the continuum of injury care, and strengthens the national infrastructure for multicenter investigation.

Together, our current members represent more than 170,000 multidisciplinary trauma care professionals including trauma, burn, orthopedic and neurological surgeons; emergency physicians, trauma nurses and EMS providers; geriatric and rehabilitation specialists; pharmacists; and survivor and patient support communities.

CORE MEMBERS

- American Association for the Surgery of Trauma
- American Burn Association
- American College of Surgeons - Committee on Trauma
- Eastern Association for the Surgery of Trauma
- Western Trauma Society

STAKEHOLDER MEMBERS

- American Trauma Society/Trauma Survivors Network
- Military Health System Strategic Partnership with the American College of Surgeons
- Orthopedic Trauma Association
- Society of Trauma Nurses

AFFILIATE MEMBERS

- American Association of Neurological Surgeons/Congress of Neurological Surgeons
- American College of Emergency Physicians
- American Geriatric Society
- American Society of Emergency Radiology
- Anticoagulation Forum
- National American Thrombosis Forum
- National Association of Emergency Medical Technicians
- National Blood Clot Alliance
- Society of Critical Care Medicine
- The Health Alliance for Violence Intervention
- Trauma Center Association of America

INVESTIGATOR TESTIMONIAL

"CNTR drafted and collected more than 100 letters of support, partnered on the writing of our grant, prepared budgets for 10 sites, and submitted the proposal--and that was all before we received funding for our PCORI VTE Prophylaxis Implementation project. They've also been invaluable in its execution. I love this team!"

ELLIOTT HAUT, MD, PHD, FACS

The Johns Hopkins University School of Medicine, Professor and Vice Chair of Quality, Safety & Service, Department of Surgery
